INDEPENDENT AUDITOR'S REPORT

Board of Directors
Ventura County Community Foundation
and Supporting Organization
Camarillo, California

We have audited the accompanying Combined Statement of Financial Position of the Ventura County Community Foundation and Supporting Organization (a non-profit organization) as of September 30, 2010, and the related Combined Statements of Activities and Changes in Net Assets and Cash Flows for the year then ended. These financial statements are the responsibility of management. Our responsibility is to express an opinion on these financial statements based on our audit. Information for the year ended September 30, 2009, is presented for comparative purposes only and was extracted from the financial statements for that year, on which an unqualified opinion dated December 18, 2009, was expressed.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the financial position of the Ventura County Community Foundation and Supporting Organization as of September 30, 2010, and the changes in its net assets and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

As explained in Notes 1 and 3 to the combined financial statements, the combined statement of financial position includes investments valued at \$18,875,402 (22% of net assets) as of September 30, 2010, whose fair market values have been estimated by management in the absence of readily determinable fair values. Management's estimates are based upon information provided by the investment managers.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of selected financial information on pages 19 and 20 are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

VENTURA COUNTY COMMUNITY FOUNDATION AND SUPPORTING ORGANIZATION

NOTES TO COMBINED FINANCIAL STATEMENTS

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

The Ventura County Community Foundation (the "Foundation") was formed to provide a vehicle through which contributions and bequests can be made for charitable, educational, and related purposes in Ventura County, enabling and promoting philanthropy to improve our communities, with the proviso that these funds would be administered and distributed by an independent organization. The Foundation administers more than 501 individual funds, each established with a gift instrument describing either the general or specific purpose for which grants are made.

Principles of Combination

The accounts of the Martin V. and Martha K. Smith Foundation, a supporting organization, are included in these financial statements. A supporting organization is a separately incorporated charitable organization administered by the Foundation. Its public charity status is attained through its affiliation with the Foundation. The net assets of the supporting organization totaled \$9,706,740 and \$9,313,402 as of September 30, 2010 and 2009 respectively. The Foundation has eliminated all material inter-organizational accounts and transactions.

Basis of Accounting

The accompanying financial statements of the Foundation are prepared using the accrual basis of accounting.

Classification of Net Assets

The Foundation reports information regarding its financial position and activities in three classes of net assets - unrestricted, temporarily restricted, and permanently restricted - based on the existence or absence of donor-imposed restrictions.

Unrestricted Net Assets

All contributions, including those with donor-imposed restrictions, are subject to the variance power established by the Foundation's governing documents. The Board would exercise its variance power to modify any restriction on gifts to the Foundation only if the stated purpose of a contribution is no longer consistent with the charitable needs of the community or is incapable of fulfillment. Accordingly, unless time restrictions have been imposed on contributions, net assets are generally classified as unrestricted net assets. It is the Foundation's policy that absent contrary explicit directions in the transferring instrument from the donor regarding the use of the principal, all or part of the principal of any fund may be used subject to certain conditions, including the approval of the Board of Directors consistent with all legal requirements. Contributions with donor imposed restrictions that are met in the same fiscal year as the contribution is made are included as unrestricted support that increases unrestricted net assets.

VENTURA COUNTY COMMUNITY FOUNDATION AND SUPPORTING ORGANIZATION

NOTES TO COMBINED FINANCIAL STATEMENTS

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Temporarily Restricted Net Assets

Temporarily restricted net assets include irrevocable planned gifts and gifts that may have time restrictions, as requested by the donors. Earnings on endowment funds that have not yet been appropriated are also classified as temporarily restricted net assets. Earnings on temporarily restricted net assets are reported as an increase in temporarily restricted net assets. When a restriction expires, (when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the Statements of Activities as “net assets released from restrictions”.

Permanently Restricted Net Assets

Permanently Restricted Net Assets are subject to explicit donor-imposed restrictions that will be maintained in perpetuity. The investment income generated by permanently restricted assets is temporarily restricted by law until appropriated by the Board in support of the Foundation’s programs and operations. The Foundation’s permanently restricted net assets consist of those endowments held by the Foundation as defined under the Uniform Prudent Management of Institutional Funds Act (UPMIFA).

Cash and Cash Equivalents

The Foundation considers all highly-liquid investments with an initial maturity of three months or less to be cash equivalents.

Investments

The fair market values of marketable securities are determined through quoted market values. Alternative investments, which are not readily marketable, are carried at their estimated fair values as determined by management in good faith with the assistance of third-party investment managers using methods it considers appropriate. Those estimated fair values may differ from the values that would have been used had a ready market for these securities existed.

Donated Property and Investments

Donated property and investments are recorded as contributions at their fair market value at date of receipt.

Property and Equipment

The Foundation's investment in equipment and leasehold improvements is stated at cost, or fair market value if donated. Depreciation is calculated using the straight-line method over an estimated useful life of five to ten years.

VENTURA COUNTY COMMUNITY FOUNDATION AND SUPPORTING ORGANIZATION

NOTES TO COMBINED FINANCIAL STATEMENTS

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Income Taxes

The Foundation is a California nonprofit public benefit corporation, which is exempt from income taxes under Internal Revenue Code Section number 501(c)(3) and State of California Revenue and Taxation Code Section 23701(d); therefore, no provision for income taxes is required. The Foundation qualifies for the charitable contribution deduction under Section 170(b)(1)(A) and has been classified as an organization that is not a private foundation under Section 509(a)(1).

The Foundation evaluates uncertain tax positions whereby the effect of the uncertainty would be recorded if the outcome was considered probable and reasonable estimable. As of September 30, 2010, the Foundation had no uncertain tax positions requiring accrual.

The Foundation files tax returns in California and U.S. federal jurisdictions. The Foundation is no longer subject to U.S. federal and state tax examinations by tax authorities for years before 2006.

Comparative Amounts

The amounts shown for 2009 in the accompanying financial statements are included to provide a basis for comparison with 2010 and are not intended to present all information necessary for a fair presentation of the 2009 financial statements in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain amounts and disclosures. It is at least reasonably possible that the significant estimates could change in the coming year and accordingly, actual results could differ from those estimates.

Significant estimates used in the preparation of these financial statements include:

- Allocation of certain expenses by function.
- Discount factors used in determining pledges receivable and annuities payable by charitable trusts.
- Allowance for contributions receivable.
- Fair market value of assets held by charitable trusts.
- Fair market value of certain investments.
- Depreciable lives of property and equipment.

VENTURA COUNTY COMMUNITY FOUNDATION AND SUPPORTING ORGANIZATION

NOTES TO COMBINED FINANCIAL STATEMENTS

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Donated Services

Donated goods and services received by the Foundation are recorded at fair market value at the time of the donation. During the fiscal year ended September 30, 2010, hundreds of volunteers gave their time and expertise to the Foundation in a wide variety of areas including service on the Board of Directors; grants and scholarship committees; administrative, technical and financial advice; volunteer faculty at the Center for Nonprofit Leadership; and office and public relations activities. This contribution, despite its considerable value to the mission of the Foundation, is not reflected in the financial statements.

Contributions

Contributions received are recorded at their fair value on the date of donation. Unconditional promises to give are recognized as revenue in the period received and as assets, decreases of liabilities, or expenses depending on the form of the benefits received. Conditional promises to give are recognized when the conditions on which they depend are substantially met.

Grants

Grants are recorded as expenses when they are approved by the Board of Directors for payment.

Financial Instruments

The Foundation carries financial instruments at cost, which approximates fair value.

Subsequent Events

The Foundation has evaluated subsequent events through December 22, 2010, the date which the financial statements were available to be issued.

Note 2 - PLEDGES RECEIVABLE

Unconditional promises are included in the financial statements as pledges receivable and revenue of the appropriate net asset category. A discount rate of 3% has been applied to multi-year pledges receivable. At September 30, unconditional promises are expected to be realized in the following periods

	<u>2010</u>	<u>2009</u>

VENTURA COUNTY COMMUNITY FOUNDATION AND SUPPORTING ORGANIZATION

NOTES TO COMBINED FINANCIAL STATEMENTS

Note 3 - INVESTMENTS (continued)

Investment expenses for the years ended September 30, 2010 and 2009 totaled \$335,512 and \$318,878, respectively and is included in the management and general expenses.

The Foundation, in accordance with UPMIFA, allows the Board of Directors to appropriate the net appreciation based upon the Foundation's present and anticipated financials requirements, expected and total return on its investments, price level trends, and general economic conditions. The Board of Directors may distribute all or part of the accumulated earnings of each fund at its discretion, unless otherwise explicitly restricted by the terms of the specific fund.

Note 4 - FAIR VALUE MEASUREMENT

The Foundation has established a framework for measuring fair value and expanding disclosures about fair value measurements. Accounting principles define fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value hierarchy has been established that prioritizes valuation inputs into three broad levels to ensure consistency and comparability. The fair value hierarchy gives the highest priority to quoted prices in active markets (Level 1) and the lowest priority to unobservable inputs (Level 3).

The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in active markets that are not active; discounted cash flows; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities; including general partner estimates and recent third-party appraisals.

Where quoted market prices are available in an active market, securities are classified with Level 1 of the valuation hierarchy. Level 1 securities include highly-liquid government bonds and exchange traded equities. If quoted market prices are not available, then Level 2 fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 3 securities include hedge funds, private equity, and some international equities where there is no immediate market pricing option available.

Following is a description of the valuation methodologies used for instruments measured at fair value on a recurring basis and recognized in the accompanying Statement of Financial Position, as well as the general classification of such instruments pursuant to the valuation hierarchy.

Note 4 - FAIR VALUE MEASUREMENT (continued)

Large Cap Equities - Large Cap is defined in accordance with the Russell 1000 Index which measures the 1,000 largest companies in the Russell 3000 Index. The Russell 1000 Index represents approximately 92% of the total market capitalization of the Russell 3000 Index.

Mid Cap Equities - Mid Cap is defined in accordance with the Russell Midcap Index which measures the 800 smallest companies in the Russell 1000 Index. The Russell Midcap Index represents approximately 27% of the total market capitalization of the Russell 1000 Index.

Small Cap Equities - Small Cap is defined in accordance with the Russell 2000 Index which measures the 2,000 smallest companies in the Russell 3000 Index. The Russell 2000 represents approximately 10% of the total market capitalization of the Russell 3000 Index.

International Equity - International Equities are represented in the asset allocation model by the Morgan Stanley Capital International (MSCI) Europe, Australia, Far East (EAFE) Index. The MSCI EAFE Index is based on approximately 1,000 securities listed on over 20 of the world's stock exchanges. It aims to account for approximately 60% of the capitalization of each nation's market. The index is computed as an arithmetic average of the individual capitalization-weighted indices of the component countries.

Fixed Income - The purpose of the fixed income segment is to provide a hedge against deflation, provide a stable component of return, and to minimize the overall volatility of the Account. The percentage of assets allocated to fixed income should be sufficient to ensure that neither the current income nor the principal value of the fund declines by an intolerable amount during a period of extended deflation.

Hedge Funds - An aggressively managed portfolio of investments that uses advanced investment strategies such as leveraged, long, short and derivative positions in both domestic and international markets with the goal of generating high returns (either in an absolute sense or over a specified market benchmark). Legally, hedge funds are most often set up as private investment partnerships that are open to a limited number of investors and require a large initial minimum investment. Investments in hedge funds are illiquid as they often require investors to keep their money in the fund for at least one year.

Private Equity - Privately negotiated investments with equity or equity-like features into companies that are generally not traded or otherwise do not provide investment liquidity; Private Equity is medium to long-term financing provided in return for an equity stake in potentially high growth unquoted companies. Private equity funds are typically structured as private limited partnerships where the actual portfolio managers who manage the fund make up the general partner and the providers of capital, the individual and institutional investors, make up the limited partners. Private equity investments often demand long holding periods to allow for a turnaround of a distressed company or a liquidity event such as an IPO or sale to a public company.

NOTES TO COMBINED FINANCIAL STATEMENTS

Note 5 - PLANNED GIVING

The Foundation is the residual beneficiary of two irrevocable trusts, the assets of which are not in the possession of the Foundation. Upon termination of each trust, the Foundation shall receive the assets remaining in the trust. The Foundation recognizes annually the change in the present value of the estimated future benefits to be received when the trust assets are distributed as increases or decreases in the value of split-interest agreements on the Statements of Activities.

The Foundation is the beneficiary of a pooled income fund maintained by a trustee. A pooled income fund pools, invests and manages life income gifts from different donors. During the term of the life income fund, the donors receive the actual income earned on their units in the fund. Upon their death, the donor's units revert to the Foundation. The Foundation recognizes annually the change in the present value of the estimated future benefits to be received when the fund assets are distributed as an increase or decrease in the value of split-interest agreements on the Statement of Activities.

Donors have contributed assets to the Foundation in exchange for a promise by the Foundation to pay to the donor or to individuals or organizations designated by the donor a fixed amount for a specified period of time. Under the terms of the charitable gift annuity agreements, no trust exists, as the assets received are held by, and the liability is an obligation of, the Foundation. The present value of payments to beneficiaries under these arrangements is calculated using discount rates representing risk-free rates in existence at the date of the gift. The liability is the value of the annuity contract as determined by Section 72 of the Internal Revenue Code and the tax tables there under. The Foundation's planned gifts at September 30, 2010 and 2009 are as follows:

	<u>2010</u>	<u>2009</u>
Charitable remainder trusts	\$ 2,430,681	\$ 2,047,716
Pooled income fund	76,647	75,159
Charitable gift annuities	<u>320,079</u>	<u>304,908</u>
Total	<u>\$ 2,827,407</u>	<u>\$ 2,427,783</u>

Note 6 - OPERATING LEASES

The Foundation rents facilities under a lease agreement expiring in November 2012, with an option to extend an additional five years, payable in monthly installments of \$10,342. In addition, the Foundation has a joint office-use agreement with United Way. The Foundation pays for twenty-five percent of the specified combined space through November, 2012. For the year ended September 30, 2010, the amount was \$875 per month. Minimum annual lease payments are as follows for the fiscal years ended September 30:

2011	\$ 137,954
2012	142,074
2013	<u>23,794</u>
Total	<u>\$ 303,822</u>

Lease expense for the years ended September 30, 2010 and 2009 totaled \$133,896 and \$130,007, respectively.

Note 7 - AGENCY ENDOWMENTS

Accounting standards specifically require that if a not-for-profit organization establishes a fund at a community foundation with its own funds and specifies itself as the beneficiary of that fund, the community foundation must account for the transfer of such assets as a liability. The Foundation refers to such funds as agency endowments.

The Foundation maintains variance power and legal ownership of agency endowment funds and as such continues to report the funds as assets of the Foundation. In accordance with accounting standards, a liability has been established for the fair market value of the funds.

At September 30, 2010, the Foundation was the owner of 75 agency endowment funds with a combined fair value of \$9,654,997. All financial activity for the year then ended related to these funds is segregated on the Statement of Activities and has been reclassified to the agency endowment liability.

Note 8 - COMMITMENTS

At September 30, 2010, the Foundation had made investment commitments to partnerships that are not readily marketable in an amount not to exceed \$6,400,105.

Note 9 - NET ASSETS RELEASED FROM RESTRICTIONS

Net assets were released from donor restrictions by satisfying the restricted purposes specified by donors.

	<u>2010</u>	<u>2009</u>
Re-granting	\$ 390,665	\$ 323,054
Time restriction met	267,107	1,804,008
Planned giving	<u>317,949</u>	<u>-</u>
Total	<u>\$ 975,721</u>	<u>\$ 2,127,062</u>

Note 10 - CONCENTRATIONS OF REVENUE AND CREDIT RISK

The Foundation maintains cash balances at Wells Fargo Bank. Accounts at Wells Fargo Bank are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000. At September 30, 2010, the Foundation has an excess of \$9,413,197 over the FDIC insured amount. The Foundation maintains a majority of investment cash balances in money market funds. Such balances are not fully insured.

A majority of the donors to the Foundation are from Ventura County.

At September 30, 2010, \$21,021,088 of the Foundation's long-term investments and money market funds were held in custodial accounts by a bank and invested by three separate asset managers in numerous securities and in money market accounts. In addition, a total of \$26,743,949 was invested in two mutual fund investment companies, and \$18,875,402 in investments whose fair market values have been estimated by management in consultation with investment consultants and managers in the absence of readily available determinable fair values.

Note 11 - RELATED PARTY TRANSACTIONS

Board members and committee members of the Foundation may also serve on boards and committees of entities receiving grants and support from the Foundation. Each board member and committee member has to complete a conflict of interest declaration form annually. Those board members and committee members who have conflicts abstain from voting on grants if the beneficiary is one of these entities.

Note 12 - RETIREMENT PLAN

Effective January 1, 2010, the Foundation adopted a 403(b) Plan to replace the SIMPLE IRA that was previously in effect. Foundation employees who work at least 20 hours per week are eligible to participate in a deferred salary savings plan under Section 403(b) of the Internal Revenue Code after one full calendar month of services. The Foundation matches at its discretion up to 1% of the eligible salary upon participation. For eligible employees with more than one year of service the Foundation at its discretion may contribute an additional percentage of the participant's eligible salary. For the year ended September 30, 2010, Foundation contributions to the 403(b) Plan totaled \$6,762.

Prior to January 1, 2010, the Foundation had a SIMPLE IRA plan for eligible employees, defined as those who have received at least \$5,000 in compensation in the prior year and are reasonably expected to earn at least that same amount in the current year. Under the plan, employees may defer a percentage of their income up to the maximum allowed by the IRS. The Foundation provided a matching contribution equal to 100% of the elected deferrals up to 3% of their annual compensation. For the years ended September 30, 2010 and 2009 the SIMPLE IRA expense totaled \$7,014 and \$28,930, respectively.

Note 13 - RECLASSIFICATION

Amounts from the September 30, 2009 financial statements have been reclassified to conform with the September 30, 2010 financial statement presentation.

Interpretation of Relevant Law

The Board of Directors of the Foundation has interpreted the California adopted Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring a long-term investment strategy designed to preserve the fair value of the original gift. As a result of this interpretation, the Foundation has classified those funds for which there is explicit donor prohibition as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment funds that are not classified in permanently restricted net assets are classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Foundation in a manner consistent with the standard for prudence prescribed by UPMIFA. In accordance with California UPMIFA, the organization considers the following factors in making a determination to appropriate or accumulate donor restricted endowment funds:

- (1) The duration and preservation of the fund.
- (2) The purposes of the Foundation and the donor-restricted endowment fund.
- (3) General economic conditions.
- (4) The possible effect of inflation and deflation.
- (5) The expected total return from income and the appreciation of investments.
- (6) Other resources of the Foundation.
- (7) The investment policies of the Foundation.

Endowment net assets are composed of the following as of September 30, 2010:

	<u>Unrestricted</u>	<u>Temporarily Restricted</u>	<u>Permanently Restricted</u>	<u>Total</u>
Donor-restricted	\$ 57,747,663	\$ 618,263	\$ 1,172,220	\$ 59,538,146
Board-restricted	621,321	-	-	621,321
Total endowments	<u>\$ 58,368,984</u>	<u>\$ 618,263</u>	<u>\$ 1,172,220</u>	<u>\$ 60,159,467</u>

Return Objectives and Risk Parameters

The Foundation has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the long-term purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the organization must hold in perpetuity for donor-specified periods as well as board-designated funds. The endowment assets are invested in a manner that is intended to produce results that provide a reasonable balance between the quest for growth and the need to protect principal. The investment policy calls for a diversified portfolio utilizing various asset classes with a goal of reducing portfolio volatility and risk. The Foundation expects its endowment funds, over time, to provide an average rate of return that, over market cycles, exceed annual distributions, fees, and inflation. Actual returns in any given year may vary from this amount.

Strategies Employed for Achieving Goals

To satisfy its long-term rate-of-return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objective within prudent portfolio risk constraints.

Spending Policy and How the Investment Objectives Relate to Spending Policy

The Foundation, in accordance with UPMIFA, allows the Board of Directors to appropriate the net appreciation based upon the Foundation's present and anticipated financials requirements, expected and total return on its investments, price level trends, and general economic conditions. The Board of Directors may distribute all or part of the accumulated earnings of each fund at its discretion, unless otherwise restricted by the explicit terms of the specific fund. The spending policy in effect for the year ended September 30, 2010, was to distribute between 2% and 5% of a rolling 12 quarter average of the fair value of the assets as of June 30, 2009. The spending policy is approved on an annual basis by the Board of directors for the subsequent fiscal year based upon the conditions at that time.

Endowment Funds with Deficiencies

From time to time, the fair value of the assets associated with individual donor-restricted funds may fall below the level that current law requires the Foundation to retain for a fund of perpetual duration. In accordance with accounting principles generally accepted in the United States of America, these deficiencies are reported as a reduction in unrestricted net assets. Such deficiencies may result from unfavorable market fluctuations, particularly if the funds were invested in the endowment pool shortly prior to significant market declines. As of September 30, 2010, the Foundation held 55 endowment funds where the market value had fallen below the original corpus due to market conditions. The amount of the shortfall totaled \$512,344.
